

June 29 2019 SVR Autocross #3 & Zone Event

What a perfect day for the third SVR event of the season which was a Zone event as well. Temperatures were reasonable and there was a light off and on breeze that helped keep things just about perfect. Setup went smoothly and the first cars were out shortly after 9 AM. Thanks to the many Autocross team members and other volunteers that showed up at 6:30 (or earlier) to ensure that everything got off to a good start.

We had our largest showing in some time due to this being a zone event. We had 69 drivers sign up, had a few drops at the last minute and ended up with 63 drivers, split across 3 run groups each with whopping 10 timed runs. As usual we had a fair number of newer autocrossers who we were glad to see back as well as a few first timer's that we look forward to seeing again. If you are one of the drivers attending your first few events, PLEASE reach out to us and let us know what we did well and of course how can help make your experience even better for next time. We look forward to your input (autocross@svr-pca.org)

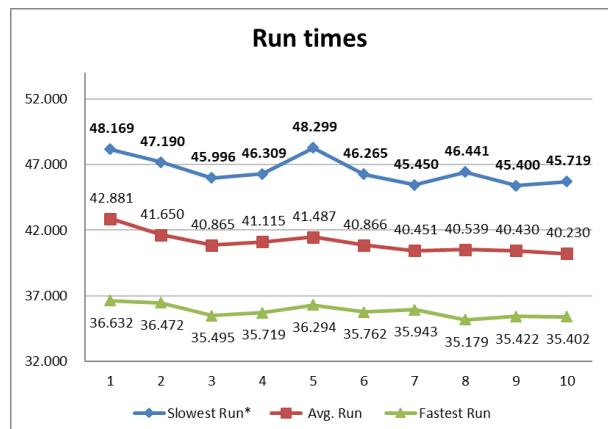

For our third event of the season we enjoyed another great course titled "Zippy Finish" designed Kent Treiber. Kent's known known for placing "evil cones", but took a break this month and the course seemed fairly straight

forward and skillfully utilized a large portion of available space. The course required precise lines so that drivers could maximize carrying speed through the various elements. Things started with a nice straight followed by a kinked turn that you had to hit JUST right, so you could follow the shared wall into the next straight leading into the S turn at the top left of the course map. Existing the S you headed into a large "u turn" which if done right you'd be able to increase you speed throughout which lead to the aptly titled "Zippy Finish". As noted earlier you needed to be very precise

to get the best times out of this course which was why so many drivers took to their 7th+ run to get their best time. Fantastic course Kent!!!! On a sad note, we've been informed that Kent will no longer be a snowbird, and he'll be moving to his winter home permanently. He'll be helping us through the end of this season though so we're looking for additional volunteers for assistance and input on course design. If you want to try your hand at course design... raise it... we'll work with you autocross@svr-pca.org.

Average Times: Average run times dropped by two seconds fairly quickly, then snuck back up followed by a slow and steady decrease of another two seconds through the rest of the afternoon. The steadily improving times are likely attributable to the many runs and multiple chances to try different lines and find the one line with that precise turn in point and speed that would get your car the result you hoped for. Now all you have to do is tie each of the 13 or so turns together in the same run to get your "perfect run". *(So more or less one turn every 3 seconds... yeah...getting all of them perfect - like that'll happen... you feel you tied together 13 perfect turns, buy a lotter ticket tonight).*

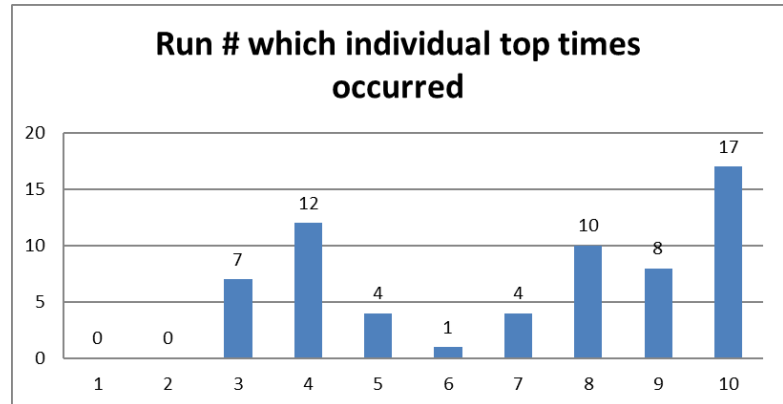

Top Times of Day: We had a significant number of drivers getting their top times in the afternoon with 70% of drivers getting their TTOD in the afternoon. We had a larger than usual 40% getting managing to tie together the 13 turns together successfully (or at least most of the turns) to speed across the finish line (forward or backwards) on the final run of the day. There was a great deal of stress at the beginning of the day though. The first car out at the

June 29 2019 SVR Autocross #3 & Zone Event

PCA Zone Event was a BMW (GASP) driven by Greg Zajic who posted a first run of 39.026. Porsche after Porsche ran, but nobody could catch Greg. We were concerned for Larry Sharp, the announcer, his voice getting more and more desperate as each successive Porsche crossed the line without unseating the BMW. FINALLY, about 15 cars in, Carl Winkler came to the line 37.917, followed immediately thereafter by Steve Nieslony at 37.827 pushing the BMW firmly out of the top spot resulting in Larry calming down and alleviating our concerns for his health.

Ladies Top Time: For the ladies we had a nice battle. At the end of the day the top five female drivers were separate by a mere 1.3 seconds. Carol McNamara set the bar with a first run time of 40.899. Carol improved by a just over 2/10ths on her second run but Joy Nieslon snatched the top spot with a second run of 39.590. Kat Johnston was slowly closing the gap and on the third run pulled ever so slightly ahead of Joy with a 3rd run time of 39.399. Both Carol McNamara and Corrin Vanetti posted fourth run times JUST a shade shy of Kat's time so the afternoon was shaping up to be interesting. In the afternoon Kat's first run was a 39.042. Try as they might the ladies could not tie together the perfect runs to catch her... Things held until the 10th run when Kat posted her best time of the day securing top spot finish, with Joy Nieslony a close second at 39.157, and Kelsey Leet with a time of 39.545.

Men's Top Time: Top time of day was not nearly as interesting as the ladies. Our top five drivers were separated by about 1.6 seconds. Monty Pack set the bar on the first run with a time of 36.632 with the closest competitor, Himanshu Patel about ½ a second slower. Monty improved by 0.15 in his second run, and nearly a full second in his third leaving the bar set for the morning runs at 35.945. Monty's time made it through the 8th run when Monty managed to go even faster when he sped to his fastest time of day at 35.179. That time held to the end of the day for the top podium spot. Steve Forshay was second with a time of 36.624, and Larry Sharp third with 36.767.

PAX (Performance Adjustment Index) is an adjusted top time based on assigned handicaps based on vehicle make/model/year and level of modification and handicaps are based on actual performance of cars in multiple PCA AX events over the years. The adjustment allows for comparison of times on a more even playing field. Top 5 PAX times of for our PCA members were close but Brant Ballantyne (P14-2001 Boxster) had a solid 8th run putting him into the first PAX spot with a time of 34.201. Himanshu Patel (S07-2014 Cayman S) in 2nd at 34.544 with Larry Sharp (P16 2006 Cayman S) at 35.036, Monty Pack (I05-2018 GT3) with 35.109, and Fraser Marshall (S10 2013-Carrera) at 35.266.

Fun Stuff:

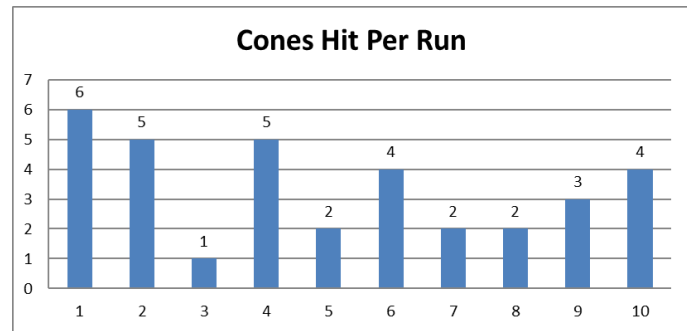

Most Improved: Below are the individuals that showed strong improvements between first reasonable run (run one or two) and best run. The average participant saw an average of about 6% which equates to around 2.6 seconds. The biggest improvement came from Lorie Forshay at 14% or 7.8 seconds during the day with a best time of 47.631. Jonathan Zepeda 11% during the day and shaved off 5 seconds with a best time of 39.642. Quan Tran 10% saving 4.5 seconds, Bernard Ting 9% & 4 Seconds, and finally, Wayne Guerin with 9% shaving off 3.8 seconds. Wonderful job everyone.

Consistency: One of fun measures is who's the most consistent. This takes your three best runs of the day and determines a standard deviation for those runs. The lower the value, the more consistent your runs were. I

June 29 2019 SVR Autocross #3 & Zone Event

don't think we've had this tight a group in some time but with 10 runs across 53 competitors it was bound to happen. Joe Weinstein varied by a mere 20/1000 of a second. Collin Fat 22/1000 of a second difference followed by Brett Hamner at 0.037, David Schnitzer (a regular on this list) .043, and James Burton 0.044.

Coneage: We ended up with a Mere 34 cones bumped out of the box, thrown in the air or downright squashed. This is down from our last event and we had more drivers!!!! Kent – you need to place more evil cones. Things were relatively light to start the day and only got better through the day for the cones with a full set of 53 drivers managing to navigate the course with nary an cone displaced.

Cone King and Queen: Be aware, we do NOT recognize for avoiding cones, so please don't look for your name here if you were successful in those endeavors. We ended up with a record 49 cone dodging individuals who managed to avoid hitting any cones (*Please keep the course workers from getting bored... hit some cones*). The remaining 14 were responsible for the quivering cones and keeping the course workers awake. **The King and Queen awards come with a crown magnet that you "get to" put on your vehicle for the next event!**

Cone King: We had three "regulars" individuals vying for this... uh... award... Alan Booth, Bob Shoenherr, and Kent Treiber. Kent was in the lead with three cones, one picked up on three of his four morning runs. Alan and Bob were still at zero. After lunch Kent picked up one more, and Alan caught a single cone on four of his afternoon runs. Bob however chose to bunch things up and caught two cones on two separate runs in the afternoon. By the official rules, the most cones in the fewest runs wins. Congratulations Bob.

Queen – No real winner here. The only lady to garner any cones was Kelsey Leet who managed to pick up two cones on separate runs. She can have the magnet next month if she wants but not sure if getting two cones deserves a crown/magnet.

AX Improving your times—Don't forget that the SVR autocross team is here to help you continue improving your car handling skills so PLEASE reach out to members of the AX team for input, advice, or coaching as you continue honing your skills. Coaching is not for just the NEW drivers, it's for everyone. Good example is Brant who asked have a coach ride along in the and he also rode along with the coach as well. In his next run Brant shaved of $\frac{3}{4}$ of a second from his time and continued to improve. *Actual results may vary, depending on your coach, your car, your demeanor. This team makes no warranty that your results will meet or exceed Brant's improvement.* If you've hit "that plateau" let us know. We're happy to help and if requested ride along and provide additional coaching or suggestions for fine tuning of your driving as you skills progress. Our instructors frequently ride in each other's cars and provide pointers or ideas. Reach out to us.

We look forward to seeing you at future events in our 2019 season. Registration will be open soon for the July 13th SVR Autocross #4.

Your PCA Sacramento Valley Autocross team
