

# How To Register for an Event Using MSR

Using MSR is easy: you just fill in a few blanks with simple information and click buttons to indicate choices. But first you must either register to create your account, or log in using your credentials. Creating an account is simple and free. For those of you who are uncomfortable with computers, a quick guide to the registration procedure is below (apologies to those comfortable with computers for these simple instructions):

- Open the MSR website and find the **the event you are interested in signing up for. Some events are closed to the public and you will need a direct link for registering. This link is usually on the flier for the event or listed on our website.**

By clicking this link [www.motorsportreg.com](http://www.motorsportreg.com) or something similar.

- Read the information about the event and click “CONTINUE” at the bottom of the page
- Read the Event Requirements and then click “CONTINUE” at the bottom of the page
- If you **DON’T** have an account, click “**Create a free account**” on the right hand side of the page. If you have a MotorsportReg account, enter your sign in credentials and click “CONTINUE” at the bottom left of the page, you can skip the rest of these instructions for creating an account, and continue on with registering for the event.

- If you are creating a FREE account, enter your name, email address and zip code as instructed; click “CONTINUE”

- Enter your contact information, emergency contact information, a sign in name you choose, and a password for the account; don’t forget to check the box accepting the MotorsportReg privacy and terms of use; click “CONTINUE”

- You are done creating your account. Remember to write down your sign in name and password.

- You can now complete your registration for the event.

- Once registered and signed into motorsportreg, you may look for events on the master calendar if the event is made public Use the sort choices, if the event chair has chosen to make the event public. If not type in **SVR** and it will list all SVR events that are using Motorsportreg.com (MSR) for registration/signup/RSVP

Once you find an event you are interested in, just click “register”. This will take you to the signup page, which will have instructions for that event.
